A BRIDGE TOWARDS EUROPE

EUROPEAN COLLEGE OF PARMA FOUNDATION

The European College of Parma Foundation is a higher education institute which provides advanced academic training for young graduates coming from European and Non-EU countries in the field of European Union law, economics and policies, and, more generally, on the process of European integration.

The study programme of the European College of Parma Foundation relies on an academic body including former EU Commissioners, top-level directors of European and national institutions, university professors and experts in EU issues.

The training provided is geared to preparing students for careers in EU, national and local institutions, professional associations, the corporate world and private practice.

One of the College's objectives is to build up the students' professional skills in order to enable them to deal with EU policies and participate in their implementation.

Besides the postgraduate programme leading to the Diploma and University Master in Advanced European Studies, other specialised training courses on EU law, economics and politics have been organised for local bodies (regional governments, provinces, municipalities, etc.) and the European Food Safety Authority (EFSA).

ONAOSI FOUNDATION

ONAOSI (Opera Nazionale per l'Assistenza agli Orfani dei Sanitari Italiani) is a Non-profit National Organization aimed at providing help and support for the orphans or needy children of Italian sanitary workers.

MISSION

Support, educate, and train young people to enable them to obtain a qualification, and access the labour market.

The Organization provides benefits to orphans and, under certain conditions, to the children of taxpaying healthcare workers (surgeons, dentists, veterinarians, and pharmacists), as well as to taxpayers themselves in conditions of vulnerability and non-self-sufficiency.

STAGE EXPERIENCE IN BRUSSELS: A BRIDGE TOWARDS EUROPE

PHASE 1: ACADEMIC TRAINING IN PARMA

In the first phase, students will be welcomed by European College of Parma for a preparatory training phase concerning the functioning of public and private entities in Brussels, and a specific linguistic training in English

STAGE EXPERIENCE IN BRUSSELS: A BRIDGE TOWARDS EUROPE

PHASE 2: STAGE EXPERIENCE IN BRUSSELS

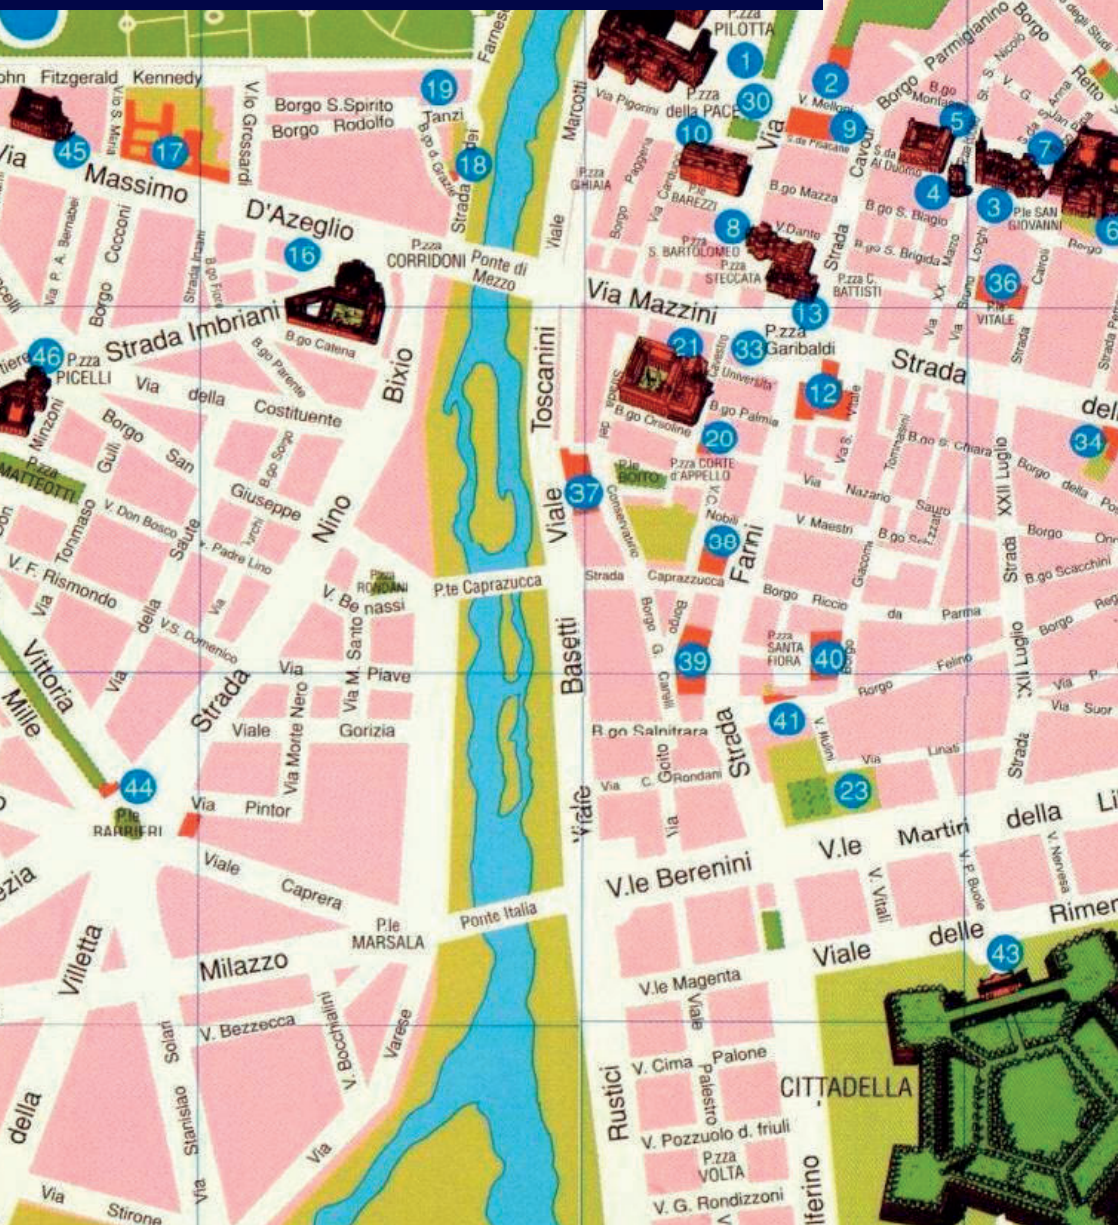

The stage will take place in the city of Brussels, the European capital of major European institutions, representative offices of public and private entities as well as European and international companies.

The living environment in Brussels is characterized by a context of exchange and comparison between different people, cultures and languages where it is possible to establish a real intercultural dialogue and benefit from a highly valuable training opportunity, which will allow the students to

be more competitive on the job market, to know and improve a language other than the mother tongue and to experience the ability to adapt to new realities. The stage experience in Brussels and abroad in general represents, in most cases, the best opportunity to grow as an individual, to encourage discussion and networking situations and to learn different and even innovative ways to interpret better your professional future.

PARMA: A EUROPEAN CAPITAL IN ITALY

Parma is a university city, and it is famous all over the world for its Parmigiano cheese and ham.

Furthermore, Romanesque buildings, including "Parma Cathedral", with its frescoes, and the "Baptistery", in pink marble, adorn the historic center.

The 19th-century "Teatro Regio" hosts classical music concerts.

The "National Gallery", inside the magnificent "Palazzo della Pilotta", exhibits works by the painters Correggio and Canaletto.

Within the city, people mainly move by bike.

If you want to rent one, we recommend "La Cicletteria", located near the train station.

EUROSTAR

As the seat of the EU, Brussels is known as the "Capital of Europe," and its significance as a center of international governance and business makes Brussels a global city.

The city is known for its cuisine and gastronomic offer (including its local waffle, chocolate, French fries, and various types of beers), as well as its historical and architectural landmarks.

The city is bilingual, and in all the fields of public life Flemish and French are used side by side.
